Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

Examiner inquired as to how the limitations of claims 33 and 38-39 differed from the cited Wilkinson reference. Applicant explained that they required the production and capture device to be on the same integrated substrate or device, and that Wilkinson did not teach this. However, Examiner pointed out that although claims 38-39 appear to have this limitation not taught by Wilkinson, that claim 33 only required the capture device and processing circuitry be on the same device. This limitation having been taught in the final paragraph of page 17. Applicant submitted a proposed amendment to claim 33 to include some of the limitations of claims 35 and 37, and Examiner agreed to enter as an Examiner's Amendment since the remainder of the claims were in condition for allowance.

Part III.

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
